**This fellowship funds a PhD researcher in the arts for a four-year period by means of a part-time appointment as a researcher (assistant, 50%) at Sint Lucas Antwerpen School of Arts KdG. The PhD researcher will need to enroll as a PhD student at ARIA (University of Antwerp).**

There are **four** fellowships available, of which one is a pilot in collaboration with Jan van Eyck Academie, Maastricht, the Netherlands.

The fellowship in collaboration with Jan van Eyck is thematically defined:

*We invite proposals in artistic research that explore the ways center, periphery, and margin are reconfigured through circulation in contemporary art. While artists deeply engage with local communities and infrastructures of resistance, they also navigate the temporality of residencies, exhibitions, and mobility. What happens to situated practice when it relocates? What traces, absences, or continuities does it leave behind? Combining theory and research-creation, the PhD project shall examine how dwelling, movement, and return shape artistic methodologies, aesthetics and ethics.*

*Jan van Eyck Academie offers the selected PhD fellow:*

- 3 months/year the possibility to join the Jan van Eyck community: the fellow will have a private studio space, will have access to Jan van Eyck advisers, can make use of the expertise of the Labs, and can join the (public) programme of the academy
- 1000€/year production budget

Please indicate below if you are specifically applying for the collaboration with Jan van Eyck Academie!

Applications submitted by the 1<sup>st</sup> of March 2026 are expected to have two supervisors (Sint Lucas Antwerpen and University of Antwerp) and to formally meet all requirements. For the proper course of events, consider the following:

1. Make sure that both your supervisors have confirmed their commitment before the 1<sup>st</sup> of February 2026.
2. Please inform the research coordinator ([ruth.loos@kdg.be](mailto:ruth.loos@kdg.be)) before the 1<sup>st</sup> of February 2026 about your upcoming application and specify who will be your two supervisors.
3. You should submit your application not later than 1<sup>st</sup> of March 2026 – 12:00 (noon). Upon submission, the signature of both your supervisors is required.
4. The selection process is conducted by an external international committee consisting of academic and non-academic experts in artistic research and visual arts. Positively ranked candidates will be invited for interview not later than 13 May 2026. Selected candidates will be informed not later than the 31 May 2026.
5. Please read all relevant ARIA and Sint Lucas Antwerpen information (PhD Roadmap, SLARG Rules for supervision...) and inform yourself about all institutional obligations related to ARIA and the Antwerp Doctoral School (including but not limited to Data Management Plan, Ethical clearance, reporting duties, Spring School, Doctoral Programme). At Sint Lucas Antwerpen, you will be expected to participate in the monthly research meetings and feedback sessions, in the annual research week and to publish in the research publication GROUNDS.
6. For non-European applicants: The research visa strictly limits your Belgian work permit to KdG. This means that you can only work at KdG.
7. Respect the indicated maximum characters.
